FREQUENTLY ASKED QUESTIONS

How many projects can you make simultaneously?

- Junior managers can create up to 5 projects simultaneously. Senior management, however, has the authority to create unlimited projects.

I can't sync my tasks to the tracking sheet. What's wrong?

- Try refreshing the project board and the plug-in. If a problem still persists, contact the IT department.

FREQUENTLY ASKED QUESTIONS

Can the PMT integrate with my Cloud Drive?

→ Absolutely. PMT features various integration options that help boost your productivity to new heights.

Do deleting project boards remove them completely?

→ That is your choice. PMT allows archiving of all the completed projects and tasks if the feature is enabled. If it is disabled, the project cannot be recovered.
